Mr. Masterson is President of Kilowatt Partners, an energy management company that provides utility management services. He has many years of experience in manufacturing in the material handling industry, research and development and manufacturing of electric vehicles, the development of medical devices with Dr. Debakey, and building and operating retail businesses such as Blockbuster Video. He has also worked in banking and investment banking.

Mr. Masterson is past Treasurer, Board Member, and serves on various committees of the Greater Houston Chapter of Community Associations Institute and on the Business Partners Council of CAI – National, an organization providing education and information for communities across the country. His company is a multi-chapter CAI member. Mr. Masterson until recently was President of Harris County Improvement District 12, of which much of the land was recently purchased by University of Texas. He serves on the Board of Bayview Acres Association. He worked for the City of Houston specifically focusing on budget issues. He served as Campaign Treasurer for two Council and one City Controller elections, all successful.

He received a Master of Business and Public Management from Rice University and a Bachelor of Business Administration from the University of Texas, Austin, TX.
